Labs  
Canada

# SUSTAINABLE LABORATORIES

## *Sustaining the Industry for the Next Generation*

The 2024 SLCan Conference Committee is exploring the following topics as the focus of this year's conference:

1. DEI – Accessibility and Inclusion in Labs
2. Reduction in Embodied Carbon and Net Zero Goals
3. From Incubation to Commercialization
4. Greening Operations and Policies

Under the lens of these four pillars, how are you/we...

- Supporting science research and growth in Canada? I.E., policy, design, research parks, etc.
- Developing space that will meet our net zero carbon goals?
- Developing space that top scientists want to work in?
- Going beyond minimum code standards to make spaces accessible and accommodating for accessible devices?
- Advancing, promoting and supporting the principles of diversity, equity and inclusion in your planning and design work?
- Supporting DEI and/or accessibility policies in your new laboratory planning?
- Operating laboratories to meet reduced embodied carbon goals?
- Supporting the development from incubation to commercialization?
- Facilitating early collaboration with users and facilities, maintenance and operations teams to better design laboratory space and meet the end-user expectations?
