

**2022 SLCAN Sustainable Laboratory Conference**  
**October 24-26, 2022 in Vancouver, BC**  
**Presenting Organization List (Alpha)**

Company/Organization	First Name	Last Name	Title	Presentation Title
Aercoustics Engineering Limited	Steve	Titus	President and CEO	Acoustics for the Resilient Lab
Aircuity, Inc.	Dan	Diehl	CEO	Efficiency First and the New Normal for Sustainable Lab Design
Aqua Air	Kevin	Shelast	Principal	Decentralized Demand Controlled Ventilation in Vivarium Spaces
BGLA Inc.	Yvon	Lachance	Senior Partner	McGill University Lyman Duff Building - A Major Upgrade of a Mid-Century Laboratory Complex
Cermak Peterka Petersen Wind Engineering Consultants	Jordan	Beardy-Singh	Project Consultant	Wind Engineering: More Than Just Wind Turbines
CIMA+	Patrick	Flemming	Partner	Master Planning for Science Facility Renewal and GHG Emissions Reduction
DIALOG Design	Neel	Bavishi	Building Performance Lead	High Performance Laboratory Facilities: A Pathway to Zero Carbon Design
	Charles	Marshall	Partner	
Diamond Schmitt Architects	Martin	Kristensen	Associate	Lab Resiliency: Case Study of the NRC Brookside Facility
IBI Group	Jay	Deshmukh	Associate/ Manager	RETHINKING OFFICES: How the Sciences Can Breathe New Life into Commercial Space
	Jonathan	Steel	Director	
Integral Group	Joel	Chuan	Project Manager	Energy and Safety Upgrade in SFU's LEED Gold Chemistry Building
	Mary	On	Associate	More for Less – Lab Upgrades and Energy Retrofits
	Kevin	Shea	Principal	Achieving Big Carbon Savings in Private Pharma Manufacturing
Motioneering	Julia	Graham	Senior Scientist-Engineer	A Performance-Based Design Approach for Balancing Risks and Construction Cost in Vibration-Sensitive Labs
National Research Council Canada	Robert	Chercoe	Regional Site Operations Manager, West	Lab Resiliency: Case Study of the NRC Brookside Facility
Number TEN Architectural Group	Aaron	Pollock	Architect	Lab Resiliency: Case Study of the NRC Brookside Facility
Pageau Morel et associés	Magali	Tremblay	Assistant Director and Associate	McGill University Lyman Duff Building - A Major Upgrade of a Mid-Century Laboratory Complex
Precision Nano-Systems	Mike	Misajon	Facilities Manager	Achieving Big Carbon Savings in Private Pharma Manufacturing
Public Services and Procurement Canada	Elisabeth	Girgis	Manager, Science and Sustainability Advice	Developing Laboratories Canada's First Environmental Strategy
	Karissa	Milbury	Policy Analyst, Laboratories Canada,	
RWDI	Joel	Good	Practice Area Leader	Climate Change Resiliency
	Ryan	Parker	Senior Engineer	Exhaust and Intake Considerations for Converting Offices to Labs
	Kenneth	Roko	Senior Technical Director	Warmer, Wetter, and Windier: Future Proofing Your Building Enclosure for Extreme Weather
Simon Fraser University	Jaelim	Jeon	Energy Specialist	Energy and Safety Upgrade in SFU's LEED Gold Chemistry Building
	Michelle	Lin	Energy Specialist	
SMP Engineering	Warren	Lesenko	Partner	Master Planning for Science Facility Renewal and GHG Emissions Reduction
START Architecture Inc.	Janet	Koshuta	Principal	Master Planning for Science Facility Renewal and GHG Emissions Reduction
University of British Columbia	James	Montgomery	Energy Conservation Engineer	Decentralized Demand Controlled Ventilation in Vivarium Spaces
	Angelique	Pilon	Director, Urban Innovation Research	UBC Campus Living Labs: An Innovative Approach to the Collaborative Research
University of Toronto	Marc	Couture	Director, Sustainability & Energy Management	High Performance Laboratory Facilities: A Pathway to Zero Carbon Design
	Heather	Tayloe	Executive Director, Major Projects and Facilities Management, Temerty Faculty of Medicine	RETHINKING OFFICES: How the Sciences Can Breathe New Life into Commercial Space
