SUSTAINABLE LABORATORIES

Sustaining the Industry for the Next Generation

The 2024 SLCan Sustainable Laboratory Conference is a Canadian national forum focused on strengthening the sustainable laboratory community and sharing knowledge, promoting innovation and best practices, as well as providing a platform for strategic thinking and discussion on the challenges and opportunities related to these assets. We are pursuing our efforts to provide participants with the best content for professional development and learning in the field of sustainable laboratories.

WHAT IS SLCAN?

Sustainable Labs Canada (SLCan) was created in 2013 with the goal of fostering national and international cooperation in the laboratory community. Since 2013, SLCan has grown to over 250 members across Canada and internationally, with local Chapters in Toronto, Montreal, Vancouver and Ottawa. The Chapters support the local lab community by organizing collaborative events which include workshops, seminars and presentations. The Chapter events and National Conference are open to members of SLCan, as well as non-members that may be interested in joining the SLCan Community.

WHY FOCUS ON LABS?

Laboratories require a large amount of energy and resources to provide a safe and productive environment for people working in laboratory facilities.

A typical laboratory consumes 5 to 10 times more energy than an office per square meter. The Federal Government alone has almost 200 laboratory sites across Canada. There are also over 80 degree-granting Universities across Canada that have many laboratories operating continuously on their campuses. The private laboratory sector is another significant part of the Canadian laboratory industry, with many new start-ups and developed companies building facilities in cities across Canada.

WHO ATTENDS THE SLCAN CONFERENCE?

People coming to this conference are prepared to learn more about the development of sustainable labs, laboratory optimization and innovative designs and technology. Many of the attendees include:

- Research Hospitals
- Universities
- Government Labs
- Biotech / Pharma companies
- Service Providers
- Architects
- Engineers
- Consultants
- Equipment Vendors

CONNECT THROUGH THE ONLY ASSOCIATION LINKING THE NATIONAL SUSTAINABLE LABORATORY COMMUNITY AND:

- Position your business as an industry leader
- Network with a hard-to-reach audience on an intimate level
- Gain insights into new trends in the management and sustainability of Canadian laboratories

BECOME AN SLCAN MEMBER AND RECEIVE DISCOUNTED RATES ON CONFERENCE REGISTRATION FEES! VISIT WWW.SLCAN.CA TO JOIN TODAY!

ALL EVENT SPONSORS WILL BE ACKNOWLEDGED AND RECEIVE :
